PROFILE

Seasoned creative director, filmmaker and software creator with 20+ years of experience spanning Cameroon, the UK, the US and Côte d'Ivoire, applied to brand communication, film, AI-assisted production and digital products. Offers hands-on capabilities in motion design, Blender, CAD, software development and interactive experiences for businesses, agencies and institutions.

CORE CAPABILITIES

Creative direction: Brand strategy, art direction, visual identity, packaging, team leadership and production.

Film and motion: Directing, cinematography, editing, motion graphics, VFX and AI-assisted visual development.

3D and CAD: Blender and Maya modelling and animation; CAD drafting and design; product visualisation and Unreal Engine cinematics.

Software and products: Application development, UI/UX, web interfaces, AI integration, prototyping and creative automation.

Interactive experiences: Camera-controlled games, body tracking and locally processed visual effects for event prototypes.

CURRENT PRACTICE

Independent Creative Practice / Silent N Studios

Limbe and remote | 2024 - Present

Direct original films and brand content, from visual research and storyboards to animation, editing, sound and delivery.

Create software and production tools, including Eshey Label Creator, and develop education, commerce and interactive applications.

Recent Upwork work includes AI video animation and short-video delivery with client-approved milestones in October 2026.

SELECTED SOFTWARE PROJECTS

Pass Pass: Built an education platform with curriculum-based lessons, quizzes, school workflows and offline-friendly learning.

Soko Soko: Created a local marketplace pilot for shops, food businesses and service professionals, with onboarding and review workflows.

Tchkap Live: Built a local interactive prototype combining webcam effects, body-controlled games and 3D graphics.

Mbeng Ngassa

PROFESSIONAL EXPERIENCE

Archaic | Creative Director and Director of Photography

Limbe, Cameroon | 2012 - 2024

Led teams delivering brand, film and digital work for Bril, Ozil, Heineken and other clients.

Directed advertising and film production; developed identity systems and coordinated freelance talent from concept through delivery.

InMobi | Creative Technologist

London, United Kingdom | 2011 - 2012

Conceptualised and delivered mobile advertising campaigns for Unilever, Ford and Kia.

Directed freelance animators and developers producing interactive HTML5 advertisements.

Mareep Production | Creative Lead, Film Department

Abidjan, Côte d'Ivoire | 2010 - 2011

Managed brand identity, online content, production training and freelance crews; created television programmes including Wally Est Amis.
